The following regulatory changes occurred in 1999 and will be in effect for 2000:

Note: This is not a comprehensive list of all regulatory changes enacted during these two years. It does NOT include regulations changed by emergency action that expired and are no longer in effect, nor does it include regulations that have been superseded by more recent changes.

- Recreational lobstermen to add prefix “N” to their permit marking of equipment to facilitate enforcement of trap limits. [CMR 3.07]. Effective February 1999.

- Area 6 (Rockport to New Hampshire) closure amended so regulation does not conflict with state and federal groundfish closures. [CMR 3.04]. Effective February 1999.

- Maximum lobster size in Area 1 (possession) of carapace length = 5 inches, [CMR 6.01]; lobster escape vent increased to rectangular opening of 1 15/16 inch by 5 3/4 inch or 2 round openings at least 2 7/16 inches diameter; maximal lobster trap size established at 22,950 in³. [CMR 6.02]. Effective February 1999.

- Scup wintertime (Jan 1 - April 30) trip limit lowered from 20,000 to 12,000 lbs to comply with federal plan. [CMR 6.28]. Effective February 1999.

- Enactment of spring-time groundfishing closure (April 1 - May 31) in Cape Cod Bay, Massachusetts Bay, and waters north to New Hampshire border to complement federal closures. [CMR 8.12]. Effective February 1999.

- Establishment of 6 fish bag limit for shad. [CMR 8.06]. Effective February 1999.

- Enactment of fixed gear rules to complement federal rules regarding whale entanglement. Unlawful for fishermen to deploy fixed fishing gear with lines floating at the water’s surface anywhere in state waters. Lobster pots set in Cape Cod Bay right whale Critical Habitat May 16-December 31 must be rigged with at least 2 of the configurations defined in 322 CMR 12.04, while pots set in state waters outside the Critical Habitat during this time frame must be rigged with at least one of these configurations. [CMR 12.04]. Effective February 1999.

- Enactment of cod trip limits to complement federal groundfish rules. 400 pound cod trip limit for DMF commercial permit holders north of 42 °00' N latitude and including all waters of Cape Cod Bay established to complement limit in the EEZ. Effective February 1999. Also, a 2000 pound cod trip limit east and south of Cape Cod south of 42 °00' N latitude. [CMR 6.03]. Effective January 2000.

- Unlawful for recreational fishermen to possess summer flounder during the period October 3 through May 9. [CMR 6.22]. Effective April 2000.

- New landing/possession limits for commercial fishermen taking summer flounder by hooks and nets. [CMR 6.22(2)]. Effective April 1999.

- Clarifies per-vessel trap limit to comply with the ASMFC FMP for lobster which specifies all trap limits as “per vessel”. [CMR 6.13]. Effective December 1999.

- Provides the definition of lobster conservation/management areas as specified in the ASMFC plan for American lobster. [CMR 6.31]. Effective May 1999.

- Establishes licensing and statistical reporting requirements for horseshoe crabs. [CMR 6.34]. Effective May 1999.

- Commercial striped bass fishery rules changes. Change in striped bass daily limit for commercial fishermen to maximum of 40 striped bass, three no-fishing days per week, dealers must tag striped bass at point of first sale with DMF-issued tags, and a regulated fishery permit requirement replaces the special permit requirement. [CMR 6.07]. Effective June 1999.
• Definition of total length is changed for striped bass and other species requiring fishermen to close fishes' mouth when measuring fish. [CMR 6.03, 6.07, and 6.09]. Effective June 1999.

• Establishes a procedure for the transfer of limited entry fish pot permits pursuant to Chapter 184, acts of 1998. [CMR 6.12]. Effective July 1999.

• Establishes a procedure for the transfer of limited entry permits pursuant to Chapter 184, acts of 1998. [CMR 7.06]. Effective July 1999.

• Open season for catching urchins with mobile gear shortened by prohibiting urchin dragging in September. Also, lightweight dredge specifications were enacted. [CMR 6.24]. Effective September 1999.

• Northern shrimp season for 1999-2000 shortened to 51 days (open January 17- March 31) and prohibition of Sunday fishing. There are 2 new gear modifications allowed in the shrimp fishery: double Nordmore grate and a cod-end strengthener. [CMR 5.00]. Effective December 1999.

• Requires all commercial permit holders to accommodate DMF authorized sea samplers upon request. [CMR 7.05 and 7.01]. Effective December 1999.

• New groundfishing rules to complement federal rules: Maximum trawl roller size decreased from 18 to 12 inches [CMR 8.04], and trawl mesh opening for nets rigged with “square mesh” increased from 6 to 6.5 inches. [CMR 8.07]. Effective December 1999.
